

With over 25 years in the commercial industry, we are able to use our knowledge and experience to bring together furniture that co-ordinates, is truly modern and a 'this goes with that' design concept.

We believe all workplaces should be functional, but also a place to bring out the best in us. This is greatly improved by having a dynamic and modern workplace environment.

Our business has continued to evolve, specializing in the service, supply and installation of furniture for workspace interiors. We take the time and creativity to allow each project to have its own stamp

About Us

We are a family business with our original foundation in office fit-outs and joinery.

With our son and daughter in the business we are able to sustain a high level of service and we are proud to have supplied and installed furniture for some of Darwin's premium projects.

Russ and Loren joined our family business at about the same time over ten years ago. After leaving their respective trades, Russ as a marine mechanic and Loren in landscape, both have continued to contribute and we are all proud to be in the second generation of our family business...

Both Russ and Loren grew up on the job sites so they were familiar with the work and already 'job fit'... and I still find it interesting that both Russ and Loren chose to join the family business...

Ron and I commenced the company in 1989. Fast forward 26 years and we can say we have enjoyed the journey. We pretty much hit the deck running and it was seven years before we got our first holiday. The hours have been long but rewarding. We enjoy collaboration and partnership with our manufacturers and suppliers, and we enjoy working alongside designers and our clients.

We welcome your call.

A handwritten signature in black ink that reads "Cheryl".

**Loren | project manager**

Project management is Loren's passion and focus, from quotation right through to on-site installation and management of projects. Having completed her horticultural certificates (Cert III) and leaving behind her job as a landscape gardener, Loren brings her unique energy to the business.

When not at work Loren enjoys rock climbing archery and camping.

Loren is certified in:

Occupational Health and Safety Cert IV for implementation of WHS management systems (HBA BSB41412)

Project Management Practice Cert IV for implementation of project scope management (HBA BSB41513)

**Russ | site supervisor**

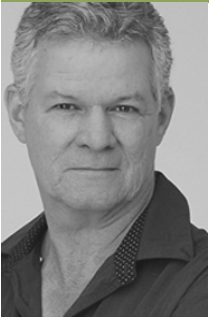

Happy to leave behind his trade as a mechanic, Russ joined the family business and totally loves his work and the flexibility that comes with a family business. Russ is our site manager including our go to person for most other jobs.

When not at work Russ can be guaranteed to be on the water fishing. Life for Russ revolves around 'the tides'...

Russ is certified in:

Occupational Health and Safety Cert IV for implementation of WHS management systems (HBA BSB41412)

Project Management Practice Cert IV for implementation of project scope management (HBA BSB41513)

**Ron | managing director**

After 15 years as Site Supervisor with a major building company, Ron commenced Vystan Interiors. Ron believed the way forward was in modular system furniture. Ron definitely got that right! That was back in 1989.

When not at work, Ron enjoys travelling the outback and fishing our local rivers.

**Cheryl | customer service & design concepts**

I joined Ron when we first opened our business, specialising in office refurbishment. With over 25 years in the business I still enjoy tendering or putting together furniture packages and of course the thrill of winning the work...

Our business has evolved with our son and daughter, Russ and Loren, joining the business and it is really great to work with them.

When not at work, I enjoy reading, anywhere, anytime.

Vystan Interiors Indigenous Scholarship - Charles Darwin University

Our team is proud to part of the CDU scholarship awards, held annually in support of students attending the University. The 'scholarship programme' is sponsored by local business houses, government bodies and members of the community; please contact CDU should you wish to learn more: email: scholarships@cdu.edu.au
